# Dynamic Digital Forms for All Your Assessment, Validation, and Audit Needs

Drag-and-drop functionality allows you to easily design digital forms that fulfill your company's needs. Add logic rules to each form checkbox and drop-down menu, which, depending on the answer selected, will dynamically reveal or hide other form fields. You can even allow forms to work in conjunction with the Training Matrix to automatically add required training to user accounts based on the fields selected.

## Form Types

Create hundreds of customized forms, including:

Incident Investigations

Hazard Assessments

Competency Validations

COR Audits

Equipment Inspections

And more!

## Advanced Form Builder

Our advanced form builder incorporates innovative drag-and-drop technology, allowing you to build and administer any form online. Each form can include:

Checkboxes

Drop-down menus

Likert scales

Images

Videos

Electronic signatures

Calculated fields

File uploaders

Open text fields

### Field Settings (CB\_2)

## Automated Alerts

Using our technology, you can set the frequency at which each form must be completed. Once the frequency is set, automated notifications are sent to specified personnel in advance of the due date. Should a due date be missed, escalating notifications can be sent to help get your team back on track.
